GSTC Criteria Sets

(2008, 2012, 2016)
2. **Criteria for Destinations** (2013)

Early-Adopter Spotlight: Botswana's Okavango Delta Ramsar Site

As far as African safaris go, there are a few destinations that rise above the rest, and Botswana is one of those destinations. The region's admittance to the GSTC's Early-Adopter program is a significant impact while maximizing benefits to the local population.

Four Pillars of GSTC Criteria

(A) Sustainability Management

(B) Social & Economic

(C) Culture

(D) Environment

“Sustainable Tourism is about a journey...a process of becoming more and more sustainable” – *GSTC*

“Sustainable tourism should not be taken to refer to a specific type of tourism. Instead, it is an aspiration for the impacts of all forms of tourism.”

- UNWTO Tourism for Development Discussion Paper on the occasion of the International Year of Sustainable Tourism for Development 2017

CREDIBILITY THROUGH CERTIFICATION

We expect our own hotels and hotel partners to implement credible, independent sustainability certifications to demonstrate social and environmental good practice. Our ambition is to increase the number of hotels with sustainability certifications to accommodate 10 million customers a year by 2020.

We encourage our hotels to aim for certification that meets the Global Sustainable Tourism Council (GSTC) standard. A mandatory clause in contracts with our accommodation suppliers outlines minimum expectations and requires them to work towards credible GSTC-recognised sustainability certification.

Crterios GSTC para Destinos

[Home](#) / [Crterios GSTC](#) / [Crterios GSTC para Destinos](#)

Los Criterios GSTC para Destinos y los Indicadores de Desempeño relacionados fueron desarrollados en base a criterios y enfoques ya reconocidos, incluyendo, por ejemplo, los indicadores de nivel de destino OMT, Criterios GSTC para Hoteles y Operadores Turísticos, y otros casi 40 principios y lineamientos ampliamente aceptados, criterios de certificación e indicadores. Los Criterios reflejan estándares de certificación, indicadores, criterios y mejores prácticas de diferentes contextos culturales y geopolíticos de todo el mundo en materia de turismo y otros sectores, según corresponda. Se examinaron los posibles indicadores de relevancia y practicidad, así como su aplicabilidad a una amplia gama de tipos de destino. Fueron probados en el campo alrededor del mundo. Para detalles sobre cómo se desarrollaron los criterios, hacer [clic aquí](#)

Algunos de los usos esperados de los Criterios por las organizaciones de gestión de turismo incluyen los siguientes:

- Servir como guía básica para los destinos que desean ser más sostenibles.
- Ayudar a los consumidores a identificar destinos turísticos sólidos y sostenibles.
- Servir como denominador común para que los medios de comunicación reconozcan los destinos e informen al público sobre su sostenibilidad.
- Ayudar a los programas de certificación y otros programas de voluntariado a comprobar que sus estándares cumplan con la normativa básica ampliamente aceptada.
- Ofrecer a los programas gubernamentales, no gubernamentales y del sector privado un punto de partida para desarrollar requisitos de turismo sostenible
