Adopting a Nature Positive Approach

Figure 12 – Nature Positive Tourism approach in destinations

The diagram demonstrates the nature-related opportunities for the private sector by working in partnership with destination authorities (such as the Ministry of Tourism (MoT), Destination Management Organisation (DMO) or Ministry of Environment) and community-based groups or projects to better protect biodiversity and restore nature.

The town that went wild

In Pettorano sul Gizio, residents are benefiting from lives that are increasingly entwined with local nature.

Star turn
From the vantage point of Piazza Rosario Zannelli, the ochre-tiled rooftops of Pettorano sul Gizio are surrounded by a sea of green, the forested slopes of nearby hills covered in a verdant blanket of pine, beech, oak and ash. Today, this captivating panorama is enjoyed by growing numbers of visitors, who are

drawn to this charming town in Italy's Central Apennine Mountains to enjoy the culture, cuisine and – increasingly – the local wild nature.
Officially listed as one of Italy's "borghi piu belli" (most beautiful small towns), tiny Pettorano is the unlikely yet hugely appealing star of Central Apennine rewilding. Perched on a

Create Wilder Parks & Wilder Rivers

Benefitting biodiversity and people

To restore stability to our planet, we must restore its biodiversity, the very thing that we've removed. It's the only way out of this crisis we've created – we must rewild the world.
